ABOUT MICROWARE

Hello, my name is **Bella** and I am **Microware's** Virtual Business Consultant. We are specialized in development and execution of I.C.T. projects of T.I.C. and operate in the following areas: :

- Digital Business Transformation
- Cloud, Hybrid Core and Networks
- Intelligent Edge
- Security
- Strategic and Global Sourcing
- Digital Marketing

Founded in 1984, our mission is to provide information and communication technology solutions for businesses and organizations in a creative, objective and secure way. We seek to be the best technology architect, applying it intelligently and according to your needs. This is how we help you focus on your priorities, contributing to your expansion, increasing your productivity, and reducing your costs and risks.

We have one of the best qualified teams in Brazil, ready to identify needs and align investments with business objectives. Our work counts with strong partnerships with the major I.C.T. solutions developers around the world.

We are located at São Paulo, Rio de Janeiro, Brasilia and Espírito Santo, with sales offices, services centers and distribution centers, serving the entire Brazilian territory. We are also part of global networks of I.C.T. solutions providers, and through them we help our clients in their global expansion.

We operate under a total quality system certified by ISO 9001, having our processes regularly audited, thereby enhancing the reliability of the projects and services offered.

Bella

VISION:

To be the reference in I.C.T. knowledge applied to businesses. To have passion for the use of the best technology solutions that enable businesses to be more successful in their activities. To add value through innovation on I.C.T. disciplines, replacing obsolete practices and models. To attain perfection and to control thoroughly our activities, to reach the excellence that our clients expect from Microware.

MISSION:

To be together with our clients, prospecting, designing and delivering the best and most adequate solutions in Information and Communication Technology (I.C.T.) for their businesses, in a innovative, objective and secure way.

VALUES:

- + Creating value for the client;
- + Integrity, ethics, transparency and trust;
- + Human resources development;
- + Innovation;
- + Data integrity and security;
- + Effective management;
- + Total Commitment to Quality;
- + Market Intelligence;
- + Social and environmental consciousness and engagement;
- + Return on investment.
