Opportunity is to be prepared at the right time

In today's globalized world, a moment can mean a lot. An opportunity may arise or disappear in moments and therefore it is important that companies are ready for them. Leverage an open door being duly prepared for it can be the difference to the success of your business.

The U.S. company Micros Fidelio, a world leader in developing applications for the hospitality industry, with more than 310,000 installations worldwide, operates in Brazil since the year 2000 with headquarters in São Paulo. The company, because of its high performance and quality of services, quickly became the leading supplier of ERP softwares, a systems for managing the hosting, management sales and reservations operations for companies of any size and complexity, aimed at the following hotel, restaurant and conference places. Among its clients are the largest hotels and chains of restaurant in Brazil.

Micros Fidelio concentrated its efforts and investments in the city of São Paulo, strengthening its brand and their market reach, waiting for an opportune time for investments and expansions. Taking advantage of the choice of Brazil as the host for major world events like the Olympics, World Cup, Rio +20, among others, the company expanded its reach in Brazil. The first expansion occurred with the inauguration of a new administrative center in the city of Rio de Janeiro.

Microware's partner for years, with a history of successful actions and achievements, Micros Fidelio worked together with Microware in this new moment of the company. Faced with the need of Micros Fidelio, Microware Technology was the only company able to answer it satisfactorily, as reported by the manager of Micros Fidelio in Rio, Bernardo Pires.

Effective Applications Distribution

The Micros Fidelio had the demand for allocated to a server in his office in Rio de Janeiro to make available applications to their sites at any time, with high response speed, with security and stability in the data stream. The Microware provided the company a solution of HP ML350 G6 Servers-649170, reliable source of stability and adaptable to your company. Endowed with the best system architecture up-to-date with room to grow. Provides redundant power, fans, helper memory and disk options, which ensures that the HP ProLiant ML350 G6 Server continues to support your business in case of system power, memory, thermal, or disk error. Ability to upgrade to CPU 2, up to 192GB DDR3 Registered or 48GB unbuffered DDR3 system memory, 16 SFF and 8 LFF HDD for tomorrow's needs. Serial SCSI (SAS) and Serial ATA (SATA) hot-plug RAID is standard on the HP ProLiant ML350 G6, making storage more reliable, versatile and affordable than ever. Possessed of an excellent enterprise-class performance at an affordable price, the HP ML350 maximizes Intel processor with the most advanced cutting edge technology and QPI multi-threaded applications for faster execution. The DDR3 offers high performance with optimal performance with mirroring, interleaved. Integrating dual Gigabit Ethernet provides network throughput and redundancy as well as the advanced RAID 0/1/10/5/6 that adds protection with high availability for the performance of hard disk efficiently.

The HP ProLiant ML350 G6 is the best DP Tower server in terms of price / performance that delivers excellence with performance, expandability and availability. Already come equipped with two sources and a 750w CPU QuadCore Intel Xeon E5620. HP is the worldwide leader in high performance servers and solutions in energy saving and resources for the superior quality of their equipment. The HP ML350 server line is ideal for a versatile and reliable network, aimed at expanding businesses and dedicated workgroups.

Effective Applications Distribution

Currently, the company objective to continue its expansion to the south, seeking position with the main centers of tourism in Brazil. The Micros Fidelio understands the importance of suppliers and employees that meet the demand of the company and provide practical and efficient solutions. "Among many companies, Microware was the best attended and provided in the service without problems, on time and with higher quality," said Bernardo Pires.

ABOUT MICROWARE
